Submitted by: Adeline Crozier | Hualapai Tribal Administration

PILOTS WEST LAST TRIP TO HUALAPAI

A group of retired pilots from California known as Pilots West first started flying food into Limestone air strip in 1977 on the Hualapai Reservation. Their first trip was in 1976 to the Yavapai tribe of Prescott, AZ where the tribe thanked them by grilling steaks for about 25-30 of them. Sandra Irwin was who they coordinated with at that time.

In 2002, up to 13-14 planes landed at Limestone airstrip along with a couple of them driving their own vehicles. Around 16-20 people would come. It was really amazing to see these planes all coming to land as well as taking off. They brought in canned goods, turkeys, etc. for Thanksgiving. Majority of the food was used for the community Thanksgiving and Christmas dinners. Every year, the Tribe thanked them in many ways such as several trips to GCW, road trip on Rt. 18, down Diamond Creek to the river, cultural food preparation, bird singing and dancing by children, having a special lunch, blankets, sharing the Hualapai cultural, etc. They gave children rides in their planes.

Beach area). Only 4 men and 2 women made the final trip. But they still delivered turkeys and food which was used for Thanksgiving and will be used for Christmas. That is how the food was used every year.

The Tribal Council sat down with them for lunch and thanked them for their many years of contributions to the Peach Springs community.

On behalf of the Hualapai Tribe and Tribal Council, Chairman Clarke thanks them for all the years they have continued this tradition for the Hualapai Tribe. We will miss you but you gave us years of hope, happiness and a spirit of gratefulness.

Hualapai Tribe • December Update*Submitted by: Dr. Damon Clarke, Hualapai Chairman | Hualapai Tribe***Gumiyuje?**

The onset of December brings us to an end to the year of 2021. It has been such a year that we have to begin to look at the past experiences we have endured and thus, leave behind, but keep in our minds and hearts. The weather seems to be not cooperating with what we expected and it is much warmer than ever during the day. Do not underestimate the pattern as we see the climate change.

We will have many challenges in the upcoming weeks and months, so be prepared to the unknown:

- We are still experiencing the effects of Covid;
- We are challenged by our own situations on a daily and personal level;
- We face the loss of family and friends- constantly (our condolences to all);
- We have expectations that have not come through and/or not what we really wanted;
- We must begin to heal with all and thus learn to heal.

The time and expectations of healing is a journey one faces internally, externally, spiritually, emotionally, and is different to one and all. It depends on what we are experiencing to the value of what we need to seek in our healing journey.

We don't experience the same sentiment as we go through an event. Some people look at a cloud and see something entirely different, or the mountains with a view of an animal, person's face or even see an image of something in a tree or bush. When that happens it is real to that person. We must respect their "vision" or experience.

Last month; November; we lost 7 members of our tribe: Ms. Dora Beecher; Ms. Felissa Gonzales; Mr. Jimmy Lee, Jr.; Ms. Karen Walema; Miss Gabriella Smith; Ms. Lueisha Siyuja; and Mr. Samuel Bravo. We offer our condolences to the families and our thoughts are with each and every family member that is in mourning.

The frustrations of our senses are overwhelming. Nothing can be done about the confusion or lack of clarity when everything we touch or try to do ends up falling short. We are out of sync with our thoughts and our surroundings. The choices we make and words we say are not the same, we are very out of balance.

We can change this chaos, we can change our internal rhythms by taking a walk and breathing deeply. We can look at the issue in a different way to ease our thoughts, into a new point of view and focus on a clarity of the picture. When this happens and see clarity of what we want and intended, we ask God and Mother Earth to bless our thoughts and ideas to the existing world. When we show gratitude and thus given new clearness, then we have completed a sense of Healing. From the point of being in balance, all things become possible and we can continue a freedom from chaos and a willingness to begin to the process of healing.

On Monday, November 29, there was a gathering for a process of healing. Not too many attended, but it was a start. We want to thank all those that participated and endured this day. Also, there was a healing walk at Grand Canyon West on Saturday, November 27. We also want to extend our gratitude for all that participated. We encourage you to heal in your own way as we move into this time of need.

In closing, we will continue to move forward and keep you in our thoughts and prayers. The following poem comes from Earth Medicine:

She Who Heals

*Mother, sing me a song that will ease my pain,
Mend broken bones, bring wholeness again.
Catch my babies when they are born,
Sing my death song, Teach me how to mourn.
Show me the Medicine of the healing herbs,
The value of spirit, the way I can serve.
Mother, heal my heart so that I can see
The gifts of yours that can live through me.*

Until next time. Tribal Council

Hualapai Tribe • Christmas Message

December 6, 2021

Gum I yuje?

By the time the next printing of the Gum yu is going on print, it will be Christmas. With that in mind, we want to *Wish You and Yours a Very Merry Christmas and a Happy New Year.*

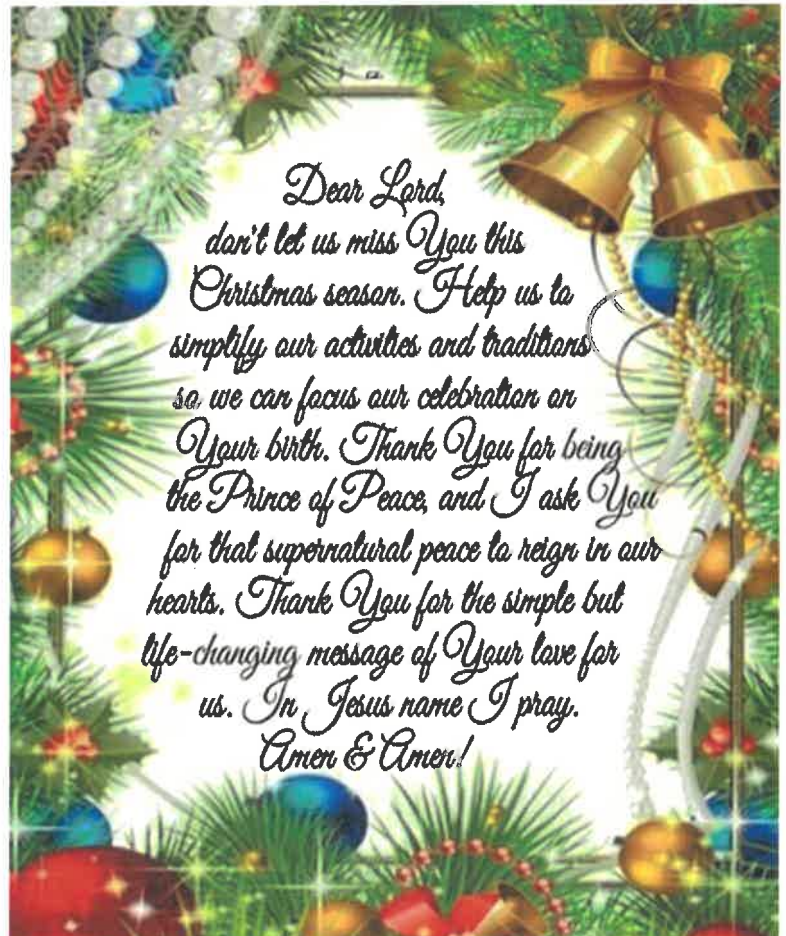

As you know, it has been a struggling two years of the Pandemic with most of our celebrations and community gatherings at a stand still. We try to keep the spreading of the Coronavirus at a minimal level, but the harder we try- the virus seems to be changing to the changes.

Although this is the case, we need to remember that this time of the year is to celebrate the Birth of Christ and we are doing so in our own way. Being blessed means to be privileged and gifted with some sort of riches, gifts or possessions. Whatever you are blessed with, you should definitely value it and preserve it.

Each one of us is blessed with the gift of life and the fact that we are born as human beings. Man is a social animal who possesses the power of speech and can convey his emotions and interact with others. You need to respect everything that you are blessed with. Very few people are blessed with all the riches and expensive possessions. It is not always easy come and easy go for all.

Some people are blessed with all the riches and are born with a silver spoon in their mouth while others work their way towards acquiring all materialistic things and possessions. Each one of us is blessed in some or the other manner. So, cherish everything that you are blessed with and make life a wholesome experience.

Hamokyu.

EAGLE EYES

December 1, 2021

POSITION OPENING

We are looking to fill our 7th/8th grade instructional assistant/bus driver position at the school. Driver training is provided. Higher wages are paid for bus driving.

The employment application can be found online on our website, valentineaz.net or a paper copy can be picked up at the school.

STAFF CHANGES

We are welcoming two new instructional assistants to Valentine Elementary! Mrs. Chokie has taken on the role of 5th/6th grade instructional assistant, and Ms. Touchette (to SHAY) will be providing interventions for our special education students.

WINTER FESTIVAL

With the calendar turn, we are literally only two short weeks (December 15) from our Winter Festival – A Candy Land Christmas!

As has been the tradition, classes will perform a number of holiday songs, after which everyone is able to enjoy the carnival booths and activities. There will be games, face painting, a cakewalk, a photo booth, and who knows, maybe even a visit from Santa Claus himself!

Participating at the booths will earn stamps on your entry into the grand prize drawing. Everyone will be able to pick up blank entry forms at the door or at any booth. Collect 8 or more stamps on your entry form, write your name and age on the form and put in your entry in the bucket for your age group. The drawing will be held at 7:50 pm.

We will be releasing all students at noon on Wednesday, December 15, so that everyone has time to prepare for the evening's event. Students need to be in their classrooms at 5:45 pm to be ready to go on stage for their performances beginning at 6pm. The evening festivities will conclude at 8pm.

HOW CAN I HELP MY STUDENT?

- Update your contact information – Anytime there is a change to a phone number, an email address, a physical address, student custody, be sure and contact the school to update the information.
- Help us teach organizational skills – With your student, go through their communication binder. This is where forms to complete and return, information (like this newsletter), and homework should be. Talk to your student about keeping their learning area (their desk) at school in order so that papers do not get lost. Model using to-do lists to keep tasks organized. Have them organize their clothes in their dresser or closet. When students are organized, they have a better chance of staying focused instead of wasting time searching for things. No one is born with organizational skills – they need to be learned and practiced.
- Have them READ. EVERY. DAY. – It cannot be stressed enough the importance of reading. As with any other skill, reading has to be practiced regularly to improve it. Whether you are at the grocery store or at the dentist's office, there is always something that can be read. From signs on the streets and grocery store aisles to directions for how to play a new board game or manuals for tools and appliances, reading is everywhere. Even math tests require reading these days. If they are unsure of words, have them look them up.

Press Release/Public Notification

COVID-19 Alert Notification

Elevated Response: Red Alert

On July 01, 2021 the Hualapai Tribal Council passed Resolution 44-2021 regarding revisions to the Color Coding Alert System for COVID-19 Response on the Hualapai Reservation.

Communicable disease and COVID-19 still active, Community Spread is evident through contact tracing and monitored by Health Officials. Based on recent contact tracing it has been determined to elevate the Color Coding Alert to a **RED ALERT**.

The Hualapai Nation COVID-19 Color Coding Alert will be at **RED ALERT**, effective **5 PM** on December 07, 2021 until it is determined to deescalate.

Here is a breakdown of the provisions of a **RED ALERT** on the Hualapai Reservation:

COVID-19

Understanding Isolation and Quarantine

1. If you have any symptoms such as fever, body aches, chills, sore throat, loss of taste or smell, self-quarantine and make an appointment for a COVID-19 Test by calling 769-2900.

Remember, if you are sick, you can get others sick.

Self-Quarantine: Once you test, self-quarantine until you know the results of your test.

If you test Positive: You will be placed on isolation for Ten Days and monitored daily by a I H S Public Health Nurse either by telephone or direct home visits.

Exposure to a Positive Person: If you have been exposed to a Positive Person, Self-Quarantine for 7 days, get tested 3 to 5 days from the exposure date.

Quarantine: Means stay home when you have been exposed to see if you become sick.

Isolation: Means STAY HOME while you are sick. Everyone in the household must isolate-in-place and will be monitored by the Public Health Nurse.

Isolation-Quarantine **will NOT end** until you have been directed by the Public Health Team, if you violate the terms of isolation or quarantine you are subject to hefty fines that may include jail-time.

COVID-19 Vaccines for Children 5-11: What Parents Need to Know

Children ages 5 and up can now receive a COVID-19 vaccine after approval from doctors and scientists at the FDA and CDC. **This vaccine is safe and highly effective against COVID-19 disease in children.**

The Delta variant has put children at increased risk for severe symptoms and hospitalization. Children who get the vaccine will receive **strong protection** against COVID-19 disease caused by all known variants of the virus. Vaccinated children will also be less likely to spread the virus to others, helping keep our families and communities safe from COVID-19.

Will children receive the same vaccine as adults?

Yes, but in a smaller dose. The vaccine for children is the same Pfizer vaccine that has been given to billions of people around the world since December 2020. Children will receive a smaller dose that is one-third the size of the adult dose.

The Pfizer vaccine uses messenger RNA (mRNA) to create antibodies that can fight off the COVID-19 virus. The vaccine does not change a person's DNA and cannot give a person COVID-19.

Is the vaccine safe?

The COVID-19 vaccine is safe and effective for children. No safety issues related to the vaccine were reported during the research trial for children ages 5-11.

A small number of people have had myocarditis - a very rare, treatable heart condition - after vaccination. The risk of myocarditis in children is extremely low. Among vaccinated 12-17 year-olds, the risk was less than 1 in 10,000. Children are more likely to have myocarditis after getting sick with COVID-19 than after vaccination.

Children should not get the vaccine if they have a history of severe allergic reaction to any of the vaccine's ingredients.

What are the side effects?

Children ages 5-11 had side effects similar to those experienced by people age 12 and older. The most common side effects included:

- Pain, redness, and swelling where the shot was given
- Tiredness
- Headache
- Chills
- Muscle pain
- Fever

These side effects typically last 1 to 3 days. In the trial, children experienced less severe side effects compared to adults.

Should my child get the shot?

The benefits of vaccination, like preventing COVID-19 and its possibly severe complications, greatly outweigh the potential risks of a rare negative reaction, including myocarditis.

Though children are less likely to experience severe COVID-19 illness, the Delta variant has been causing more cases in children, including more hospitalizations. COVID-19 hospitalization rates for Native American children are three times higher than for white children.

Children 5 and older are recommended to get the COVID-19 vaccine to protect them from the virus and to help keep our communities safe.

Stay home for the holidays

Protect yourself and others by staying home this holiday season. But if you must travel, follow these tips to prevent the spread of COVID-19:

Know you're healthy before you go.

Do not travel or plan to gather if you are sick or with someone who is sick, or if you have been around someone with COVID-19 in the past 14 days.

Wear a protective mask.

Cover your nose and mouth when in public settings, including on public transportation and in transportation hubs such as airports and train stations.

**Watch your distance.**

Avoid close contact by staying at least 6 feet apart from anyone who is not from your household.

**Wash your hands frequently.**

Using soap and water, wash your hands often for at least 20 seconds, or use hand sanitizer with at least 60% alcohol. And avoid touching your eyes, nose, and mouth as much as possible.

**Let's do our part to be safe and
stay healthy this holiday season
so we all can thrive.**

Play it Safe

**— Shop Smart this
Holiday Season!**

Keep deflated balloons away from children younger than 8 years old. Discard broken balloons at once.

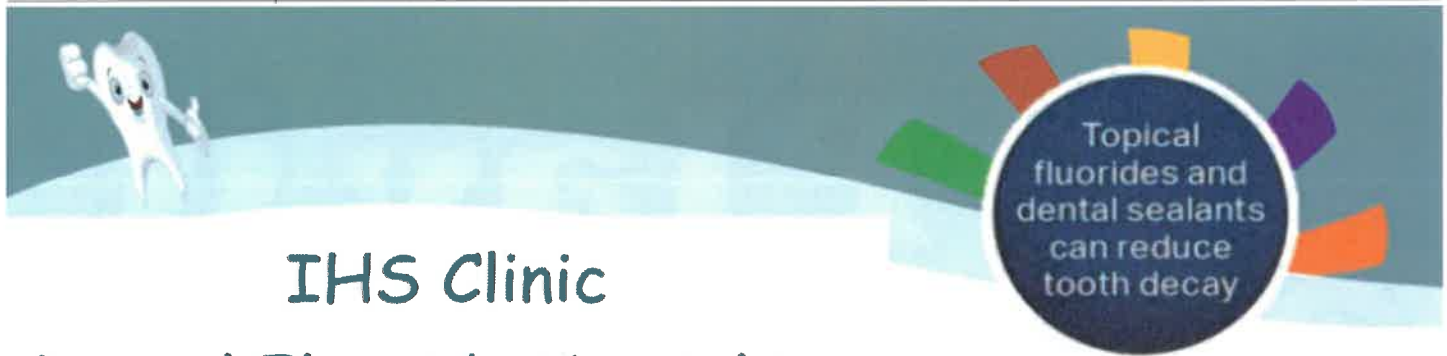

Avoid small balls and toys with small parts for children younger than age 3.

Get the right size helmets and safety gear for children using bikes, scooters, skateboards and skates. Ensure they are worn properly while riding or skating.

High powered magnet sets are dangerous and should be kept away from children under 14. Building & play sets with small magnets should also be kept away from small children.

Dental Fluoride Varnishing

Dental Fluoride varnishing is one of the best ways to prevent tooth decay. Varnish (Cavity Shield) is a topical application that hardens upon contact with saliva therefore is safe to use on younger children. Varnish helps stop tooth decay in its early stages. It can be applied to teeth up to 4X a year to help slow down the cavity causing bacteria.

The application is painless and does not require numbing or drilling in the mouth. Minor risks include: gagging, or a funny taste when applied.

Parker Dental Hygienist, Nida Lerch RDH. BS Will provide dental screening and apply fluoride varnish for Children ages 0-15 every third Friday of the month in Peach Springs Clinic. Please call the clinic for an appointment, Limited walk-ins are available.

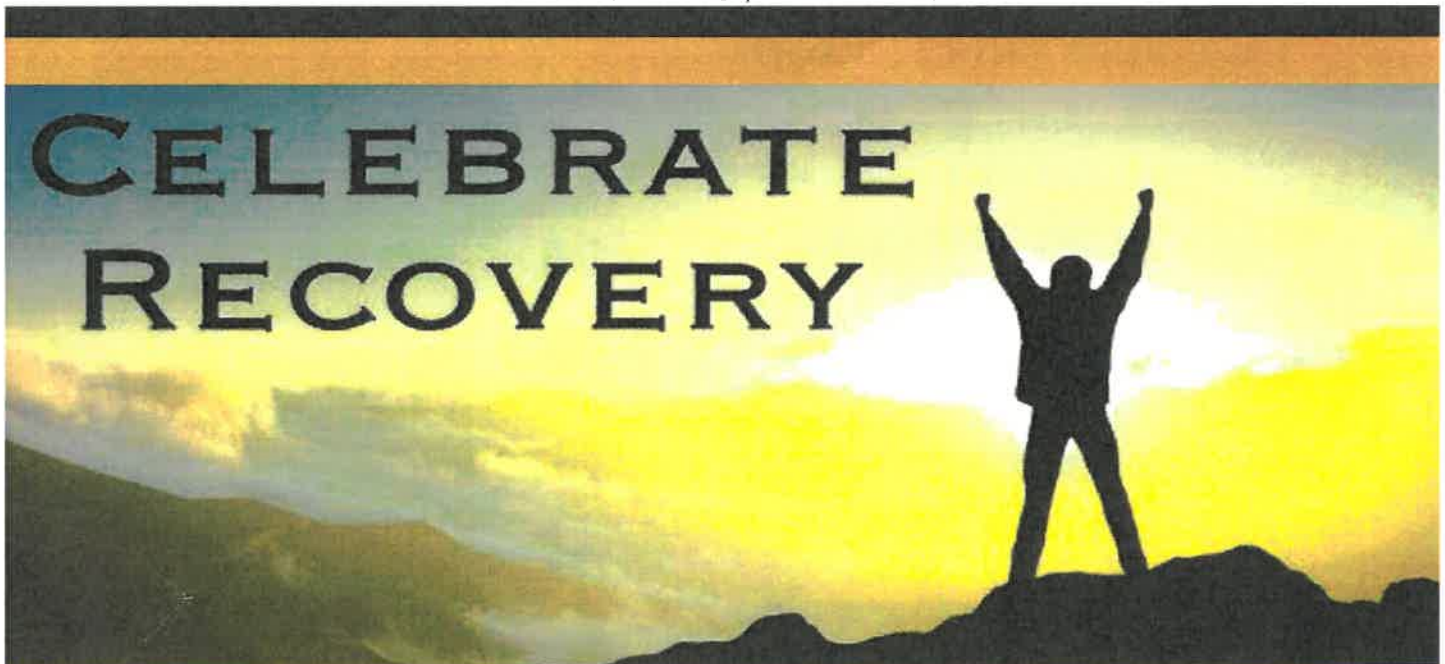

NEXT VISIT IS FRIDAY: June 18th, July 16th, August 20th, September 17th, October 15th, November 19th, and December 17th.

HUALAPAI HERITAGE: HUALAPAI TEACHER

BY BARBARA TINHORN

MY MOM (BARBARA MUKECHE) TAUGHT ME THAT ENGLISH WAS IMPORTANT, AND THE HUALAPAI LANGUAGE WASN'T. SHE SAID, "WE ARE LIVING IN A WHITE MAN'S WORLD. WE NEED TO LEARN HOW TO DEFEND OURSELVES AND READ TO SURVIVE." THEREFORE, I LOST MY IDENTITY AS A HUALAPAI. I DIDN'T KNOW ANYTHING ABOUT THE HUALAPAI CULTURE UNTIL I CAME BACK TO PEACH SPRINGS AND WORKED AS A TEACHERS AID. THEY HIRED ME THINKING I KNEW THE CULTURE AND SPOKE HUALAPAI.

I WOULD HAVE TO TEACH HUALAPAI LESSONS. 30 MINUTES TO THE YOUNG CHILDREN. MELINDA POWSKEY (A MEMBER OF MY CHURCH), JOSIE STEELE (A SUPAI), AND PHILBERT WATAHOMIGIE ALL

HELPED ME TO LEARN THE LANGUAGE. HOW TO SPEAK IT, READ IT, AND HOW TO WRITE IT. MR. REED THE WHITE MAN SUPERINTENDENT NEVER KNEW. HE THOUGHT I COULD SPEAK HUALAPAI. WHAT HAPPENED WAS, I WORKED AS A KINDERGARTEN AID. DUE TO FAMILY DEATHS THE TEACHER WAS ABSENT FOR ONE MONTH. THEY COULD NOT FIND A SUBSTITUTE. I HAD TO TEACH WITHOUT A TEACHERS HELP ON TEACHER AID WAGES. THAT IS WHEN I DECIDED TO BECOME A TEACHER. WHILE I WORKED, I TOOK NIGHT CLASSES AND SUMMER CLASSES. I DID IT! FOR ALMOST THIRTY YEARS I LOVED TEACHING MY HUALAPAI CHILDREN AND THE FUTURE GENERATIONS TO COME.
